

Curious about aerobatics?

NSW F3A Precision Aerobatics is visiting your area next month. We'd love to see more people enjoying precision aerobatics and reaping the rewards.

If you'd like to enter the competition at QMAC, we'd be happy to help you hone your skills.

If you'd just like to learn a bit more, we'd be happy to help with that too. Pretty much any low-wing sports plane is all you need to have a go.

Contact us at nswf3a@gmail.com and we'll plan a way forward together.

Competition Date: 7 – 8 February 2026
