## LGSL and Phoenix Model Aero Club at Cooma

Peter Campbell with an Infinity F5J class electric glider.

To date this year Lake George Soaring League conducted two rounds of the Southern Region Electric Glider Competition in conjunction with the Phoenix Model Aero Club at Cooma. Both events have had 12 – 15 entries in the up 2.6 meter class flown.

The event is an electric version of the old ACTAA winch launch glider rules and is aimed at participation of flyers of all levels. It is an enjoyable days gliding with a lunchtime get together for flyers.

At Cooma Round 3 of Southern Region Electric Glider competition, Rick Harris presents 1st place trophy to Robbie Blackadder.

Two flyers are also continuing to fly in the monthly Australian Electric Flight Association F5J postal competition. This is being flown from the Hall fields. Each month the best three consecutive scores are submitted via a phone app. The competition is run over ten months with best eight scores counting towards the overall winner.

Doug MacDonald recently competed in Round 2 of the Millennium Cup and placed third in very trying conditions at Muswellbrook.
