

The items below have been donated. They were built/purchased/collected by a Mr Saye.

They are all free but if you want one of the rolled plans you also have to take something else. If you email me that you want something then you have to collect asap otherwise I will offer it to the next person.

First in is best dressed. I am taking requests now and will bring anything left out to the club at our winter Solstice BBQ on June 21.

ROLLED PLANS:

- Brian Taylor Mosquito (size unknown)
- Tempest (no details)
- Drake - A Glider wingspan 1.6m fuse length: .92m
- Tornado (Airborne plans) wingspan 1.4m; fuse length: 1.2m

MISCELLANEOUS PLANS AND DOCS AS A JOB LOT (WILL NOT SPLIT):

- Cessna 310 for 2 .15 to .19 engines (wingspan 1180mm; fuse length 890mm)
- Articles about Cessna 310
- Messerschmitt Bf110 for 2 .10 to .20 motors
- Articles about Hawker Tempest V
- Guillow's Hawker Hurricane plan (kit 506)
- Plans for Hawker Hurricane wingspan 419mm; length 327mm
- Various articles and possibly plans for an A26B Invader

Engines and Kits:

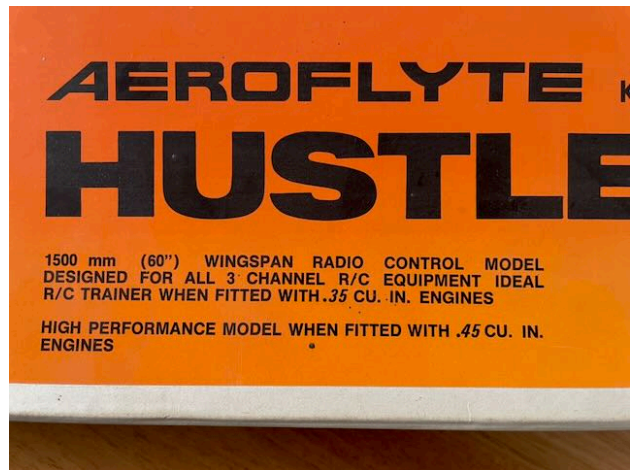

OS .46 Max
no muffler, has run but not for some time

Hobby Shack Ridge Runt Glider
partly built, plans in box

Aeroflot Hustler.
Unbuilt, wood and plans in box

Sunny by Mark's Models for RC Control
Wings built, fuse mostly finished

SIG Clipped Wing Cub
fuse, wing, horizontal stab and rudder mostly built.
some wood and plans in box

A glider with what looks like a place to fit a power pod. Wingspan approx. 1.6m; fuse length approx .90m. No other details

A fuselage possibly for a Cessna 310. Length approx. .85m. No other information or bits.

Some wings. No idea what they're for. Big one is approx. 1.2m; the little one is approx. .8m

Another hustler, mostly built needs servos, fuel tank, engine etc (the engine on it is seized).

ASSORTED OLD RADIOS (PROBABLY NOT WORKING, UNTESTED) AND STUFF. JOB LOT, WILL NOT SPLIT
